

How To Have Lifetime Income From Your Savings

The process for future security.

Now that you've acquired a substantial amount of funds from your years of hard work, let those funds work for you through the future years providing a long tenure of secured payments.

Let me show you how to accomplish this through a risk free program using Annuity Plans. We can work with well-known companies such as I N G, A I G, and more for this plan. With proper planning your annuity income is guaranteed never to run out.

Using a substantial accumulation of funds over \$50,000.00 the funds are deposited into an Immediate Annuity or also referred to as a Single Premium Immediate Annuity. The plan let's you turn part of your retirement savings into a life long income stream. Depending upon your age at the inception of the policy, a Single Premium Deferred Annuity could be used and a future date for first lifetime payment could be established thus allowing your funds to build a handsome interest income before you begin receiving any monthly income benefit.

By allowing the company to process the transfer of funds from your 401(K), or other savings account you will not incur any tax liability because you do not handle the funds yourself. Once the deposit is made the plan locks in a guaranteed rate of interest and payments will begin the next month and occur on a regular basis. The funds can then be used for monthly expenses or other needs.

If you should die during the policy period the remaining funds are then transferred to your named beneficiary and the heir may then establish a plan, as they so desire. There is no tax burden since the funds are an indemnity of a life insurance policy. However, if you live a long life you could actually receive many thousands more than you pay in as the interest accrual works on your principal and earned interest.

Let's get together and discuss this more so an individual plan may be prepared for example just for you. You may review this proposal and make your most intelligent decision with no "*rush*" for the time or date to set up the plan.
